

FUNDAMENTAL PLAY THERAPY'S

HEART & SOUL

CONVERSATIONS

Liesl (Graham) van der Sandt,
Specialist Child Play
& Trauma Therapist,
with over 20 years
of experience in
private practice,
realised that parents
and caregivers get
bombarded with

information about “quick fixes” and “tips and tools” on various online platforms, which only leads to confusion and frustration if it doesn't work for their specific families and/or children.

Liesl's dream is to create a safe and reliable environment where parents and caregivers can share their experiences, learn from each other's successes and failures and also to realise they are not alone in their struggle. From this dream the concept of “Heart & Soul Conversations” was born.

“Heart & Soul Conversations” is in the format of small, intimate groups, with max 6 participants. Conversations will take place once a month and will cover several topics under the facilitation of various experts in the field.
